▶ Refrigerated Centrifuge 110V

available for hire or purchase for your clinical trial.

Overview

Our refrigerated centrifuges are the ideal choice because of their lightweight and compact design making them ideal for international shipping.

They are easy to operate via a simple control panel, and the run can be programmed in either RPM or RCF - variable speed.

Various fixed angle and swing-out rotors are available to accommodate any kind of tube, the rotor to suit your needs can be supplied when placing your order for rental or purchase.

Specification

- Rotor Options: A-8-17 rotor and A-4-38 rotor
- Max. Speed: 4400 RPM / 3000 x g
- Electronic Timer: 99 minutes
- Weight: 78lbs /36 kg
- Dimensions: 10.2 h x15w x 22.6d inches
  260h x 380w x 580d mm
- Maintenance free induction motor
- Various capacity from 0.2ml to 85ml
- Voltage: 110V / 220V
- CE, UL and CAN/CSA certified

Operating Features

- Adjustable: 15°F to 104°C /-9°C to +40°C
- Stand By Refrigeration: to maintain a particular temperature following use
- "Fast Temp" Function: to quickly reach the desired temperature
- "At Set RPM" Function: for precise centrifugation
- Two programming keys to store routine procedures
- Large dials and an easy-to-read display
- Switch between RPM/RCF
- Speed can be set from 100 RPM to a max. of 4,400 RPM, in increments of 100
- Separate "short-spin" button
- Timer can be set for up to 99 minutes
- Continuous mode can be selected
- Rotor options available:

Rotor	RPM	x g	Max. Capacity
A-8-17	4400	2800	8 x 15ml
A-4-38	4400	3000	4 x 85ml
